EXPERIENCE

Bussiness Analyst & Project Manager *Aug 2024 — Present*
Ithinka Innovation & Information Technologies | Bursa, Turkey

I have conducted in-depth image processing and computer vision analyses to support advanced technology projects. I provide comprehensive end-user support to ensure effective system utilization. Additionally, I manage IoT projects from initiation to completion, including detailed needs analysis, accurate project cost estimations, and thorough project planning to deliver successful outcomes aligned with business objectives.

ERP Project Specialist *Mar 2021 — Aug 2024*
Güncel Software and R&D Center | Bursa, Turkey

I have overseen module management and error analysis to ensure system stability and reliability. Providing end-user support and addressing user demands have been key aspects of my role, alongside preparing comprehensive documentation. I have successfully implemented projects and driven process improvements to enhance operational efficiency. My technical expertise includes extensive use of SQL Server for database management, ERP system administration, and integration with various external systems. Additionally, I am skilled in relational database design, configuration, and performance analysis to optimize data management and system responsiveness.

Project Analyst *Oct 2019 — Mar 2021*
Prestij Software and Information Technologies | Bursa, Turkey

I have managed software modules while conducting thorough error analyses to maintain system performance and reliability. Providing end-user support and implementing improvements based on user feedback have been integral parts of my responsibilities.

Additionally, I have successfully executed new integrations with external systems and prepared detailed documentation to support project continuity and knowledge sharing.

Database Specialist *Jan 2019 — Oct 2019*
Prestij Software and Information Technologies | Bursa, Turkey

I have expertise in database configuration, management, and performance analysis to ensure optimal operation and reliability. My experience includes working extensively with relational databases, designing and maintaining data structures that support efficient data retrieval and storage.

Process Development Junior Specialist *Aug 2018 — Dec 2018*
Barsan Global Logistics | Istanbul, Turkey

I have managed and optimized business processes to enhance operational efficiency and developed tailored workflows aligned with organizational goals. Additionally, I have delivered comprehensive end-user training to facilitate smooth system adoption and maximize productivity. My experience also includes leading integration initiatives with SAP, ensuring seamless data exchange and robust system interoperability.

Software Intern *Jan 2016 — Feb 2016*
Buski General Directorate | Bursa, Turkey

During my internship, I contributed to the development of a Student Information System using C#.

Hardware Intern *Jul 2015 — Aug 2015*
Buski General Directorate | Bursa, Turkey

During my internship, I performed PC formatting, backup, and maintenance tasks. I gained basic knowledge of network standards such as LAN, MAN, and WAN. Additionally, I assisted with driver and antivirus installations and provided remote technical support to end users.

Hardware Intern *Jul 2014 — Aug 2014*
Buski General Directorate | Bursa, Turkey

During my internship, I performed PC formatting, backups, and routine maintenance. I gained basic understanding of network standards including LAN, MAN, and WAN. I assisted with driver and antivirus installations and provided remote technical support to users.

EDUCATION

Bachelor of Science in Computer Engineering *Sep 2012 — Jun 2016*
Dumlupınar University | Kütahya, Turkey

3,18/4.00

ANATOLIAN SCHOOL *Sep 2008 — Jun 2012*
Turhan Tayan Anatolian School | Bursa, Turkey

80/100

PROJECTS

2025 Sağlık Bilimleri Üniversitesi

Completed the DETUAM Smart Laboratory System IoT Project.

2024 Aka Automotive

Completed the Handbrake Quality Control System Computer Vision and Artificial Intelligence Project.

2024 Kontek Energy

Completed the Solar Panel Quality Control System Computer Vision and Artificial Intelligence Project.

2024 Borusan Boru

Completed the Weld Seam Tracking System Computer Vision and Artificial Intelligence Project.

2024 Yürek Polimer

Completed the LeoTextile ERP Project.

2023 Can Textile

Completed the LeoTextile ERP Project.

2023 Batmaz Textile

Completed the LeoTextile ERP Project.

2021 Altınsu Textile

Completed the LeoTextile ERP Project.

2021 Küçükçalık Textile

Completed the LeoTextile ERP Project.

2021 Çorlu State Hospital

Completed Oracle to MySQL data migration for Altiva Hospital Information Management System (HBYS).

2020 Antalya Demre State Hospital

Completed the Hospital Information Management System (HBYS) installation.

2020 Attelia Oral & Dental Health Center

Completed the HBYS software installation.

2020 International Dental Hospital Süleyman Mert Oral and Dental Health Center

Completed the HBYS software installation.

2018 Barsan Global Logistics, Belgium Willebroek

Completed the branch commissioning process.

CERTIFICATIONS & COURSES

Time Management (28-29 August 2019) Izgoren Academy Seminar

DRIVER'S LICENSE

Category B, obtained on September 2, 2013

Born in 1994 in Bursa, Türkiye, I graduated from Kütahya Dumlupınar University with a degree in Computer Engineering and am currently pursuing a Master's degree at Uludağ University. I am a versatile Business Analyst and Project Manager with experience in ERP systems, database management, and process development. I have successfully managed and delivered end-to-end projects across logistics, manufacturing, healthcare, and technology sectors. Currently, I focus on Computer Vision, Artificial Intelligence, and IoT projects. Skilled in SQL Server development, system integration, and user training, I specialize in driving digital transformation initiatives by translating business needs into scalable and efficient solutions.

SKILLS

- Database Management
- Database Performance Analysis
- Process Development & Management
- ERP Management
- Error Analysis & Troubleshooting
- Documentation & Reporting
- Strong Communication Skills
- Computer Vision Analysis
- Artificial Intelligence Analysis
- IoT Project Management
